## The Juice-Rite® Fruit and Vegetable Capsules

Contain a blend of 17 vegetables (vegetable capsules) and 17 fruits (fruit capsules) plus important berry anthocyanins and citrus bioflavonoids.

### About Juice-Rite

In order for us to maintain good health, it is important to have a well rounded diet, preferably one that includes plenty of fruits and vegetables. Fruits and Vegetables are loaded with vitamins, minerals, fiber, and carbohydrates that are essential fuel for the body. While fruits and vegetables can promote health as food for our daily meals, the chemical compounds that comprise them can also be concentrated into a powerful extract form to provide some surprising benefits.†

The average person suffers from an annual fruit and vegetable deficit ranging from a low of 219 servings to a high of 1,679 servings.

For nearly a century, fruits and vegetables have been recognized as a good source of certain nutrients. The USDA and National Institutes of Health recommend five to nine servings of fruits and vegetables per day. Unfortunately, about 70 % of Americans do not get the recommended amounts of fruits and vegetables daily. The beneficial nutrients in fruits and vegetables are made up of "phyto nutrients" and these nutrients have complex functions.†

100% Natural and Suitable for Vegetarians.
